Alliance
STEM
Scholarship Program

Creating an alliance for the future, one student at a time.

ABOUT

At the Alliance Scholarship Foundation Program, we are dedicated to fostering the next generation of STEM professionals through a comprehensive approach that combines scholarships, practical experience, and career development.

OUR INITIATIVES

- 1. Scholarships:** We provide scholarships to deserving students, both internally and through partnerships with the Dallas Independent School District (DISD). Our aim is to ease the financial burden of higher education and open doors to a brighter future.
- 2. Career Institute Partnership:** In collaboration with DISD's Career Institute, we offer a practicum program designed to equip students with the skills they need to succeed in the workforce. Starting in their junior year of high school, students have the opportunity to work as interns over the summer, gaining hands-on experience. In their senior year, they can advance towards earning their ACI certification, with the potential to be hired as full-time technicians upon graduation. Alan, one of our dedicated instructors, prepares these students for their certification while they are still in high school.
- 3. Industry Collaboration:** We believe in creating opportunities not just within our organization, but across the industry. We invite contractors to partner with us and consider hiring our newly graduated students. If a student prefers to work for another company, we wholeheartedly support their decision and facilitate their career transition.

OUR MISSION

Founded by Alliance Geotechnical Group, Inc. in 2022, our 501(c)(3) organization is committed to increasing STEM opportunities for Texas children, youth, and young adults. We achieve this through scholarships, research, educational programming, and curriculum development. Join us in our mission to create an alliance for the future, one student at a time.

Thank you for your interest in our third annual event. We are looking forward to many more events and educational scholarships. Have a Great Game!
